

The Red Team Analysis Society

Strategic Foresight & Early Warning for Geopolitical and Security Challenges

Scope of Services
Anticipate. Prevent. Act.

Who We are

Independent Expertise Built on Decades of Practice

Founded and directed by
Dr. Hélène Lavoix, PhD
(International Relations, MSc
International Politics of Asia
– SOAS University of
London, MFin).

Professional missions in **20
countries.**

20 years advising and
training senior decision-
makers in **strategic
foresight and warning.**
30 years of experience as
a **political and
geopolitical analyst.**

Clients include U.S.-
sponsored global
intelligence institution,
European projects, UN
OCHA, ministries, agencies,
and private companies
worldwide.

Combining academic rigor,
analytical modelling, and
strategic experience for
actionable foresight.

Our Mission & Approach

Transforming Geopolitical Uncertainty into Actionable Foresight

We help decision-makers **understand and anticipate** future political, geopolitical, security, and systemic challenges through:

Structured analytical modelling

Identifying variables and their interconnections*

Dynamic mapping

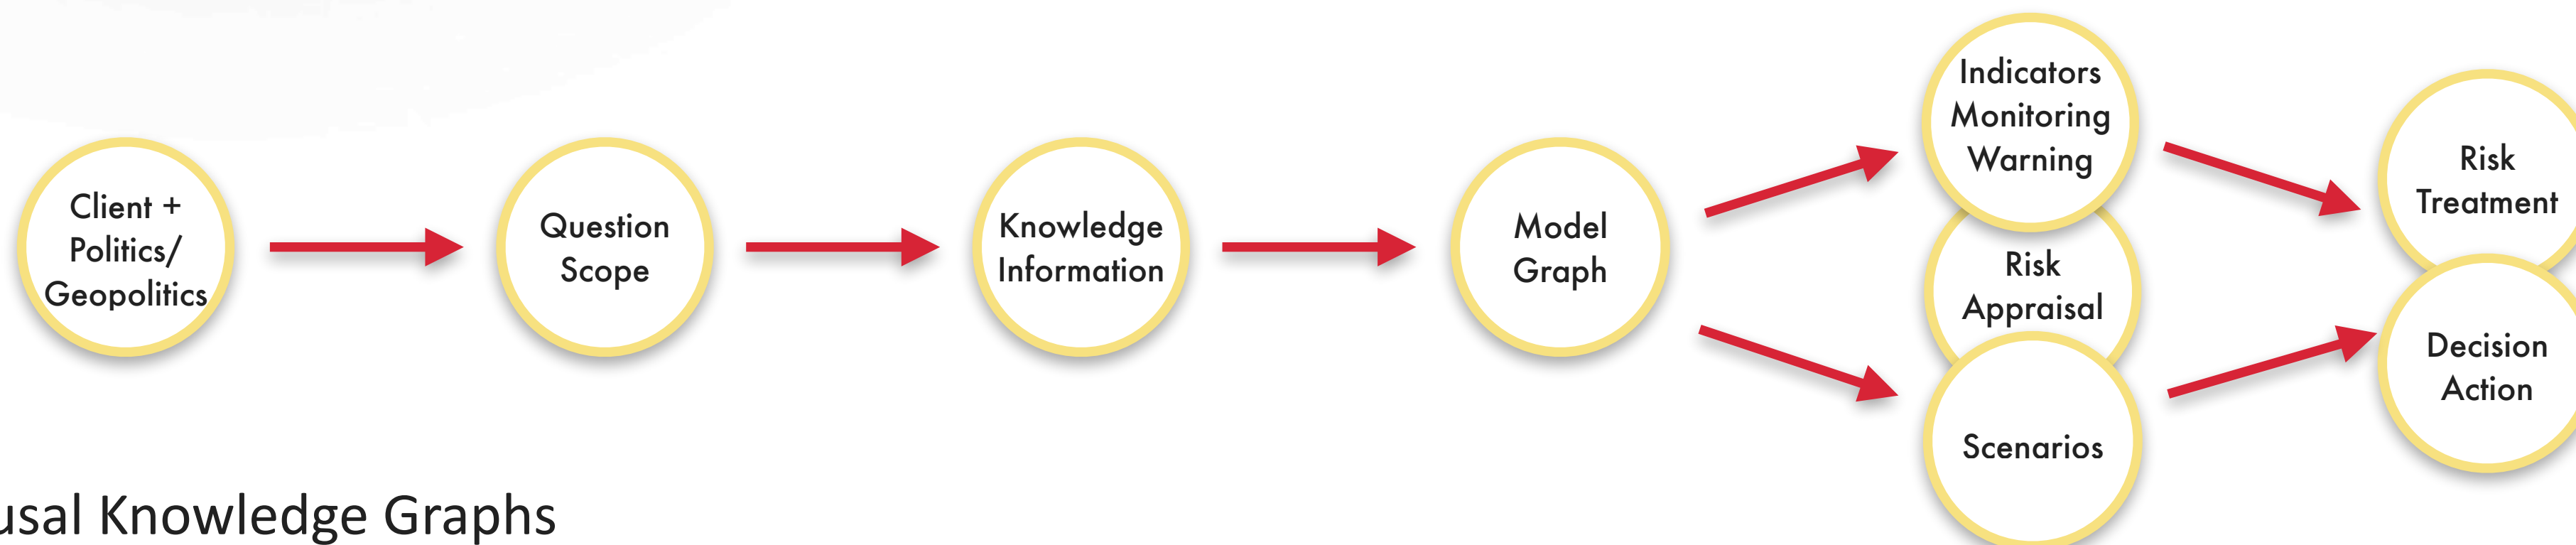

Visualising the systems that drive change.

Early warning design

Translating model into indicators for monitoring and timely action.

Actionable scenarios building

Supporting the design of resilient strategies.

* We use Causal Knowledge Graphs

Our Core Services

From Anticipation to Action

Strategic Foresight & Warning Consulting

Horizon scanning and systemic risk anticipation;
Early warning system design and indicators monitoring;
Scenario development and **policy** implications.

Tailored Training & Tutoring

The Red Team Strategic Labs – immersive **foresight and warning programmes**;
Online **analytical modelling** and **scenarios courses**;
Individual and institutional **tutoring**.

Analytical Tools & Intelligence Products

The World of Uranium 2 – interactive database and analytical platform;
The World of [X] – strategic and analytical tool for **critical materials and supply chains**;
Commissioned **geopolitical analytical reports** and **actors' mapping**.

What Sets Us Apart

A **scientific and structured methodology**, tested in real-world foresight and security contexts.

Cross-disciplinary integration of politics, geopolitics, systems thinking, graph theory and causal analysis.

Proven **capacity to train and accompany senior officials** in developing analytical capabilities.

Independent, research-driven, and fully transparent in methods and reasoning.

A long-standing commitment to **rigour, clarity, and anticipatory action**.
